William Moss joins Delphi Technology, Inc. as Vice President of Sales and Marketing

Moss to spearhead sales effort to expand Delphi Technology's insurance industry market share and presence

Boston, MA (February 29, 2008) - Delphi Technology, Inc. (**dti**), an established provider of technology solutions to the property and casualty insurance market, announced today that William Moss has joined the company as Vice President of Sales and Marketing. In his new position, Moss will report directly to Sam Fang, Delphi Technology's President, and will lead the company's sales team to expand **dti**'s market share while also supporting the corporate strategy to establish a footprint in new segments of the insurance market.

Prior to joining Delphi Technology, Moss was with Per-Se Technologies where he held the position of Vice President and Business Unit General Manager. Per-Se was subsequently acquired by McKesson Corporation where Moss went on to serve as Vice President of High Volume Pharmacy Systems. Earlier in his career he worked for several organizations in a variety of executive and sales positions. Companies included: NDCHealth Corporation, TechRx Incorporated, AMS Corporation and Revive Technologies.

Commenting on Moss's appointment, Delphi Technology's Sam Fang said, "I am very pleased to announce Bill's appointment and look forward to his contribution. He brings a long and successful career having spent almost two decades in sales, management, and technology – a combination that will serve **dti** well as we continue to expand our product offerings, leverage our past successes, and establish a presence in new insurance markets."

In addition to his professional experience, Moss earned a Bachelor of Science in Engineering from Lehigh University and a Juris Doctorate degree from Rutgers University School of Law.

About Delphi Technology, Inc.

Since 1989, Delphi Technology, Inc. (**dti**), a leading provider of technology solutions to the insurance & risk management industries, has leveraged its extensive industry knowledge and experience to deliver a comprehensive range of technology solutions to property and casualty insurers, 3rd party administrators (TPAs), self-insureds, and risk retention groups. **dti** provides proven software applications to run core insurance operations including underwriting, billing, policy administration, claims management, financial management, risk assessment, and reinsurance enabling companies to optimize their business processes and respond to changing business needs resulting in reduced costs, increased operational efficiency, and improved business intelligence.
